

I subscribe to Sattelite Rdio at a personal cost to me for the expressed purpose of getting all my information and services in one place commercial free without the censorship associated with Commercial Broadcasting that the NAB is made up of. It should not be up to the NAB to decide what I hear nor what I listen to. I resent that to no end and I will vote my conscience in November to assure my rights are protected.

Do not allow the Fat Cat Owners like Clear Channel to screw up something that works.

I respectfully insist you reject NAB petition 04-160, and leave my paid for radio decisions to me and not the NAB
